FREE information pack

As part of our work, we provide the majority of our material free of charge and the most popular item we supply is our Information pack. This is aimed at giving people a handy introduction to what we do and information on psoriasis and psoriatic arthritis.

The pack also contains a list of some of the further information that is available on our website. This pack can be ordered via [our shop](#) or you can send us an email via our [contact us page](#).

As our information is updated regularly, if you received a pack in the past you may wish to update the contents with the latest versions, which can be [order individually](#), or we can send you the latest pack. The choice is yours.

Education evening

Following the successful Patients Education Evening last September at Addenbrookes Hospital Cambridge, a second event is being planned for April 2017. [Read report of last event](#).

Watch this space for further updates or [register your interest](#) and we'll email you as soon as the time and date is confirmed.

What's in a name?

Living with psoriasis and or psoriatic arthritis is bad enough, but why oh why does it have to be so difficult to pronounce and spell?

Psoriasis (pronounced - sor-i'ah-sis), with that pesky silent P can still be a little difficult. Often when searching the internet some search engines will offer suggestions, but just in case that does not help we have a misspell page based on common misspells that occur. These are based on those that we have seen in correspondence or via site search data over the years, such as psoriasis, pseuriasis psariosis and pseriosis.

If you have any common misspellings, which you think might help to get people the information they need, let us know and we will add them to our list, which can be found [here](#). To make suggestion go to [your views](#)
