

SMC Meetings Held In Public

The Scottish Medicines Consortium (SMC) meetings are open to members of the public and press to observe. This supports SMC's commitment to openness and transparency. It enables stakeholders and members of the public to understand how evidence is assessed and interpreted, how consultation comments are taken into account and how recommendations are made.

The next meeting of the SMC will be held on **7 March 2017**, and ixekizumab (Taltz) for the treatment of moderate to **severe plaque psoriasis** in adults who are candidates for systemic therapy will be discussed.

[Register to attend.](#)

Registration closes on the **25 February 2017**.

Bone, Joint & Inflammation Roadshow

The Cambridge Arthritis Research Endeavour (CARE) are holding an evening event at the Addenbrooke's Hospital Musculoskeletal Service on **Tuesday 28th March 2017**

Venue : Clifford Albutt Lecture Theatre, Addenbrooke's Site, Cambridge

Talks include:

- Predicting pain by touching fingers
- Networking for Quality and Value
- Arthritis of the Shoulder: not all the same
- Soft and Weak Bones

The talks will be followed by questions and then light refreshments.

Get Involved

If you cannot attend meetings or events, then there are other ways you can get involved.

As an organisation, we are regularly approached to provide the patient perspective of living with psoriasis and psoriatic arthritis. This is often just to give an overview of the condition, occasionally; it will be more than that.
