Medicine and Travel

When booking a holiday it may be the last thing on your mind, but what and how you travel with your medication needs careful consideration.

Psoriasis and the Sun

Will the sun help my psoriasis? Most people who have psoriasis find that the sun helps to improve their skin's appearance. For some the change is dramatic, with red scaly patches almost disappearing altogether during summer months in a warm climate.

Market Research

An opportunity to give your views to researchers, with the aim to understand the impact of living with psoriasis &/or psoriatic arthritis.

This research is being conducted by an independent research company.

For more information contact Tom Parkinson at Exafield
