On-line survey to complete

**Royal United
Hospitals Bath**
NHS Foundation Trust

Take part opportunity one:

Are you interested in the impact your diet has on your psoriasis and psoriatic arthritis?

Many people make changes to their diet to improve their health, but there is little information to help guide which decisions to make for people with psoriatic arthritis.

A team from Bath including medical student Liv Ellis, research partner Mel Brooke and Dr William Tillett are investigating what changes people are making to their diet

Recruits still needed for study

Take part opportunity two:

Do you want to take part in a study on the microbiome in psoriatic arthritis?

The researchers are looking for men and women over 18 years old with psoriatic arthritis who would be willing to attend in London or Bath.

The aim of the study is to Identify, group and mark the differences in gut microorganisms found in patients with psoriatic arthritis and ankylosing spondylitis, and compared to participants without these conditions.
