Can you spare 5-minutes?

- **What questions would you like to see answered by psoriatic arthritis research?**
- **You now have the chance to tell researchers your views on what you would like to see researched in the future.**

The British Psoriatic Arthritis Consortium is working with the James Lind Alliance to run a priority setting partnership (PSP).

They are looking to create a national top 10 list of research priorities for psoriatic arthritis.

They want ideas and thoughts from people with different experiences and backgrounds: those with psoriatic arthritis, their families, carers and clinicians.

This is your chance to make sure research addresses questions about psoriatic arthritis that are important to you.

The survey results will be used to help prioritise funding for research in the future.

Start the survey now [here](#). It should take no longer 5-minutes to complete.
