

New free resource

Learn more

PAPAA has produced a new patient information leaflet called '**Childhood Psoriasis: An introduction**', which aims to provide an overview and understanding of the likelihood of a child developing psoriasis or psoriatic arthritis, how to spot the conditions, and how to support and manage the child through their early years.

Free copies can be ordered from the [PAPAA shop](#) (UK only) OR [downloaded here](#).

We can provide our material to healthcare providers free of charge too. If you work in primary or secondary care, [get in touch](#) and we can see how we can help you to support your patients.
